### Superior Court Asked To Permit Communists On Grossmont Campus

The Grossmont Junior College Board of Trustees has been ordered to show cause why Communist lecturers should not be permitted to speak on Grossmont Junior

College campus.

A hearing has been set for March 7 at 1:45 p.m. in the Superior Court at which Judge George A. Lazar will preside.

The action stemmed from a request by a student leader and a group of faculty members.

Peter Clarke, a San Diego attorney, filed a petition for a writ of mandate at the request of the American Civil Liberties Union.

The petition said trustees rejected a request of the Open Forum club to present a debate between Communist organizer William Taylor and Birch Society member Laurence Baldauf. Open Forum is a college organization emphasizing academic freedom.

The petition asserts that "the petitioners believe the subject matter... is of great importance to the United States."

In a meeting Feb. 12, trustees rejected Taylor as speaker but indicated it would approve the appearance of Baldauf, the petition states.

The suit was brought by Charles Dunbar, a student who is president of Open Forum; John Feare, as Forum's advisor; and the following additional faculty members:

Tom Ruth  
Richard Manzella  
Jacquelyn Hall  
Gordon Shields  
Gerald Ashley  
Neil Towne  
Don Shannon

### 9th District PTA Holds Conference

Dr. William Jefferds, California PTA vocational education chairman was the keynote speaker for 9th District PTA's secondary conference in the Wesley Methodist Church, 5380 El Cajon Blvd., February 26.

"Let's Get Involved," was the theme of the conference. Dr. Jefferds who is assistant superintendent of school in the Alum Rock district of San Jose and is also a Major in the National Guard gave the talk.

Administrators, secondary principals, secondary council and unit presidents, secondary council and unit program chairman and other interested representatives from each secondary council and unit throughout San Diego city and county considered the PTA's involvement in the critical issues of today.

These include such areas as health, sex education, drugs, dropouts, vocational training and other related complexities of present day school and community life, according to Mrs. Rolyn Johnson, chairman. Mrs. Johnson was assisted in planning the conference and luncheon by Meses. W. B. Pierce, J. F. Pomeroy, Fred Roatree, Walter L. Parker of San Diego; George Coltrin, Chula Vista; Byron L. Netzel, S. ### Disturb A Cop's Cool?

Few people realize that you can't disturb a cop's peace. Section 415 of the Penal Code lists several scores of activities that may be considered disturbing the peace and quiet of individuals and of communities, but nothing is listed as being disturbing to the peace and quiet of a policeman.

Punks and hoodlums, firmly protected by a much more lenient interpretation of the laws by the Supreme Court are bailing law officers as never before in the history of civilization. Courts, of course, line up with Supreme Courts, as they must, and law enforcement is weakened.

Police, from the ones doing routine bar checks, to those on traffic duty, are presently subjected to the vilest name-calling you have ever heard. All of it is extremely personal and most of it involves family members of the officers. But PC 415 denies officers of the law any relief. If the cop was out of uniform and off duty he'd be justified in beating the offender to a pulp. But as an officer he can't be offended.

One officer said that Highway Patrolmen try to avoid duty near the new stadium on football game days. The name calling there is fierce, he says. It isn't because traffic is poorly handled. It's a combination of the belief that the fan, as a taxpayer, owns a slice of the stadium which was built by public funds. They also resent the too-high parking charge with lots of employees to take the money but none to direct traffic after the dough is snatched.

Records show that one of the spots contributing to more of this senseless degradation of police doing his duty is a Lemon Grove Broadway bar—a hangout for hoodlums. These guys are well-disciplined in the fine art of baiting police; stopping just short of getting a night stick across the skull. When a cop smacks one, which is a rarity, because the courts forbid it, the hoodlum takes the cop to court. It often ends with the cop getting the penalty and the hoodlum, with a status scar to show, going back to his familiar haunts to brag. The next time a cop shows up on a bar check this ridicule is added to the rest.

How do cops react to this?

These men are professionals. Certainly, they resent the indignities they are forced by law to suffer. But one man said something that should frighten even the Supreme Court kooks.

Said this officer: "I don't need protection, I carry a gun. It's a big one. I know how to use it. I can protect myself. I get paid to do what I do and go where I go."

"My worry is about you guys (the public). We're paid to do a job we can't do properly because the laws are interpreted to mean something other than what the lawmakers intended when they had them put on the books."

Congressman Lionel Van Deelen, in Lemon Grove earlier this month, said that Congress this year probably would toughen up the laws against criminals. It's about time.

Actually, Congress needs make no other laws. We've got enough laws on the books right now. They need no grass roots legislation to turn the crime tide. All Congress has to do is to buy a couple of quarts of booze and ask the President to use them for a cocktail party for his Supreme Court. The President could say, after they all have had about the third belt, "hey guys, how 'bout lettin' the fuzz put a little heat on the criminals again—like we let 'em do when the crime rate was lower?"

We suspect no Justice could turn down this sort of cold logic.

But we never thought we'd see the day when we could suggest the return of law-and-order from the spout of a bourbon bottle.

### It's Cleanup Time Again

Lemon Grove is unusual in one respect.

Its business district has parking areas big enough to make any shopping center jealous.

The parking areas are not the gifts of county government—they are supplied by property owners who pay taxes on the area used for parking.

Since the property is privately owned, owners must supply their own sweeping service. The county sweeps its own street when there are curbs on both sides of the street. There is a long east-west strip in mid Lemon Grove which does not qualify for county sweeping service. Individual owners police their own parking area.

Some of the shops are vacant. Nobody polices this area. That's too bad, since a few littered areas give the whole street a dirty appearance. The need for business people to organize to keep the entire strip clean is obvious. But a second thought comes with this observation. Some litter comes from shoppers dropping wrappings on the sidewalk after they make their purchases. This practice is not one exclusively of youngsters either. Our thought suggests that the War on Litter people extend their program to include teaching youngsters at school how to help keep their community clean. Youngsters could teach their parents what is expected and they would benefit.

### Student Drive Tops \$1,000

More than \$1,000 has been collected for the American Field Service by members of the Helix High School. The funds are used to help sponsor three exchange students for next year.

The ASF chapter at Helix, the International Club, raised the money in their annual bond drive. This money, plus proceeds from the donkey basket

ball game will help sponsor next year's AFS students.

The first period classes and their representatives competed for prizes of a gift certificate and an AM-FM radio. Miss Mary Garcia's class took first place and their representative, Mona Morris, received the radio. Mona is the daughter of Mrs. Patty Jo Morris of 8417 Lemon Avenue, La Mesa.

Miss Garcia's class averaged \$3.63 per person, while Mr. Philip Knott's class was second with \$2.47 per person. In third place was Mr. Thomas Heyer's class with a \$1.90 average per person.

### Pre-Schol Kiddies Class Opens Today

### Monte Vista High Kicks Off Drive

Monte Vista High School will kick off its annual bond drive March 4, in an effort to raise money to bring foreign exchange students here next year.

The goal of Monte Vista's International Club is to raise \$1,800 for the exchange students, who will come over on the American Field Service program.

It cost about \$750 per student plus a little extra," said Doug Nelson, president of the International Club. He said the money would come from the bond drive and the Donkey Basketball game which will be held on March 8, in the school gymnasium.

This year's bonds, selling for 25 cents a share, have a pic-

### Dr. E. C. Grubbs Re-Elected To Post

Dr. Edwin Charles Grubbs, 3240 Main st., Lemon Grove, has been re-elected to active membership in the American Academy of General Practice, the national association of family doctors.

Re-election signifies that the physician has successfully completed 150 hours of accredited postgraduate medical study in the last three years.

The Academy, the country's second largest national medical association, is the only medical group that requires members to keep up with medical progress through continuing education.

The Academy, founded in 1947 and headquartered in Kansas City, Mo., currently is spearheading a movement to create a new specialty of family medicine that will enhance the ability of the family physician to provide comprehensive, continuing care to the public.

The foundation of this new specialty will be the Academy's postgraduate education program.

### Schools Here Close April 15

Lemon Grove School District trustees will give kids a Christmas gift early this year. They are giving students April 15 off. It wasn't planned entirely for the kids—more for teachers. April 15 is Inservice Growth Day and teachers will attend a Study Conference of the Association for Childhood Education International to be held in San Diego. Elementary schools here will be closed all day.

Another droplet of good news—this for parents, The State Department of Education has increased its contribution to the Lemon Grove school disadvantaged children's program by \$15,000. The district will receive \$44,609 this year. The extra funds will be used to expand the program.

## Girl Scout Chatter

by Mary D. Giacinto

The Girl Scouts of San Diego opened their campaign to celebrate the 200th anniversary of Scouting in San Diego by planting many flower seeds to beautify our fair city.

This act also made the girls aware of desert park life and with the help of their leaders delved into the history of our forefathers.

Troop No. 235 under Nan Lutz is working toward the earning of 'San Diego 200' Pins. Since this pin requires three phases, the girls must visit at least three historical and cultural sites.

The girls in turn make a report on their findings and together present their results to their leader as background material.

Troop No. 235 has just completed a campout to Split-Mountain-Fish-Creek in Anza Borrego Desert. Because the

# A fresh solution to air pollution:

A special fuel tank is used in LNG-powered test vehicles.

For more than a year, we've been testing liquefied natural gas (LNG) as the fuel in one of our fleet pickup trucks.

Results? LNG exhaust fumes don't contaminate the air nearly as much as gasoline.

Compared with California air pollution emission standards, our test vehicle's exhaust contains less than half the unburned hydrocarbons, and one-tenth the carbon monoxide!

Yet operating costs, and performance, are about the same as with gasoline.

Since LNG is not yet available at your corner gas station, we don't recommend converting your present car to use it. Initially, LNG can most practically be used by fleet vehicles, which are fueled at a central point.

In the meantime, we're continuing our research by testing three passenger cars, in addition to the truck. And before long, our fresh solution to air pollution may be helping to clear the smog from California skies.

fit, too.

California prohibits the tossing of debris on the highways. The State exacts a penalty from those caught littering—and it's a stiff one, too. No law of prohibition has ever suited us better. Littering is wasteful of community beauty. The community belongs to the people—and that is why each individual should be concerned.

With Old Time Days coming to Lemon Grove, a tremendous amount of cleanup work must be done to greet the thousands of people who will view the parade, stay to shop and visit, and tour the residential area.

Like any good housekeeper, we ought to "dust under the sofa" and otherwise put our best foot forward.

Let's clean up and keep it clean.

## Fire Dept. Calls

The Spring Valley ambulance was busy this past week with seven calls answered. The most serious run was to the corner of Buena Vista and Barcelona on Feb. 23, when nine-year old Albert Story of So. Barcelona st., a student at Casa de Oro School, collided with a school bus, while riding his bicycle. He died later in Grossmont Hospital.

There were two ambulance runs on Feb. 19. William Addis, 66 of 9902 Jamacha blvd., Space 180, was taken to Navy Hospital, suffering from a possible stroke; and William Samson, 55 of 860 Maria, was taken to Sharp Memorial Hospital, due to illness.

Feb. 20, Nelda Crane, 79 of 10707 Jamacha blvd., Space 38, was taken to Grossmont Hospital due to a possible heart attack.

There were two calls on Feb. 21: Bob Schneeloch, 17 of 1810 La Corda st., Lemon Grove, was picked up at Mt. Miguel

High School and taken to Grossmont Hospital. He had a bad fall while playing soccer football; and Glenn Lindeneau, 47 of 9022 Koonce dr., was taken to Grossmont Hospital, due to illness.

Feb. 25, Carl Olsen, 68 of 9902 Jamacha blvd., Space 21 was taken to Poothills Medical Hospital, due to illness.

FIRES.

## New Cars Are Complicated; But So Were They 50 Years Ago

By Vern Mathews

A Lemon Grove man and his wife who bought a car with air conditioning found this luxury equipment did not make hot-weather driving a pleasure.

Just the opposite, the man reports. Oh, it cooled the car on demand, all right. But the comfort was hardly worth the arguments it caused about the push-buttons.

The trouble came from the confusing number of switches, nozzles and controls. There were ten of them, the husband says, and all had to be set and adjusted when the system was to be used.

In time, he and his wife agreed on when and how to use eight of the ten buttons but there was an endless debate about the other two.

The indicators on the two buttons sounded important, and they were. The system wouldn't work at all unless one or the other was pushed in. But his wife, the man says, insisted on pushing the wrong button. It was going to ruin the system and cost him lots in repairs.

Similarly, a lady college professor did without a convenient accessory because she didn't know it was there. It wasn't until a Lemon Grove girl student, a passenger, flipped an obscure switch one night that the professor learned she had a bright interior light beneath the instrument panel.

SHOES OFF

She was overjoyed to learn it was there. She kicks off her shoes while driving, and now, at night she no longer has to grope for them when she arrives at her destination.

A Lemon Grove man tells of an instance wherein he was doodling with a remote button in a friend's classic Rolls-

Royce. A hidden leather panel suddenly dropped open and a kit of tools fell to the floor. Each tool lying in its own sculptured velvet pocket in an elegantly fitted case.

The Rolls owner, as happy as if it had been a box of money, the man says, had never noticed the button before—presumably because he was too busy pushing other buttons, switches and knobs to notice it.

Does all this mean that cars are getting more complicated to operate?

No. Far from it. Driving a car now is far simpler than in granddad's day.

A 1913 Cadillac Gentleman's Roadster, for example, had 24 things and gadgets to watch and operate as Grandpa toolled along for a Sunday drive. ALL 24 had to do with driving the car.

A current model Cadillac has less than half as many.

In 1914 a Model T Ford had 10 items to operate. It's about the same today.

THIRTEEN CONTROLS

It isn't the car that's complicated. It's the accessories. One popular-make car has thirteen controls to care for heat, air conditioning and ventilation. Another has nine switches to adjust seats and windows.

And warning lights. One car has six. In this case, if the driver fails to release his parking brake, forgets to fasten his safety belt, starts out with a cold engine, is low on oil and fuel, and has a bum alternator, all six light blaze at him at once.

Will this trend continue? Will some alluring new accessory be added each year, each with its own switches, lights and knobs?

Oh, there's nothing new to add?

Well, how about a television, an electric washing machine, an ironing board and electric iron, restroom facilities, a shower or bath, hot and cold running water? Telephone? P. A. system?

It could happen. In fact, it already has.

A Lemon Grove business man, Lee Mattar, proprietor of Lee's Automotive at the corner of Sweetwater and Broadway, takes a tour occasionally in a car that carries all of these accessories, and many more, including a device that pumps up the tires as the car is moving.

## Teachers Delay Strike Action

John T. Warburton, District Supervisor of the Grossmont Union High School District has requested that discussions between the Negotiating Council of the Calif. Teachers Assoc. and his office open.

The issues to be discussed will be the procedure to be used in determining the size of the tax override to be placed before the people in the fall of 1933.

Th other issue is the study of the 1968-69 preliminary budget in order to determine educational priorities in channeling available funds.

The Teachers Assoc. stated that in light of the talks that they are withholding any strike action, pending action by the District Board.

The teachers want to improve the learning experience in the classroom by alleviating present unsatisfactory conditions.

They also want to work out and maintain a salary schedule which will assure a continuance of the employment of highly competent professional teachers in the district.

## Vocational Training To Be Spotlighted

A program to encourage youngsters as early as junior high school to take a good look at vocational training classes is being spotlighted in the Grossmont Union High School District.

Attention is focused on vocational training as Industrial Education Week approaches. It will be marked March 4-9.

Ellen Abbott, coordinator, Health Occupations Educator for Grossmont, said that vocational training is a means of rescuing the potential dropout. It is one of several answers to the unemployment problem, she said.

Programs now available include the fields of agriculture, business, health, home mak-

ing, industry and services.

One program, initiated in Grossmont in 1967, includes a nurse aide program for seniors who might seek a hospital-centered career such as nursing, medicine, x-ray or lab technician.

In adults school, vocational nursing, R.N. and LVN refresher, nurse aide and orderly training are given.

Mrs. Abbott said vocational education curricula permits students to learn a skill that prepares them for immediate employment. It also permits working adults to upgrade his skills.

ture of the current foreign exchange student, Almaz Fesseha from Ethiopia, and a brief account of her life. The bonds will be sold to students during the campaign.

Fourteen AFS students representing 12 foreign countries will be on the Monte Vista campus March 4, to promote the drive, which will last through March 15.

"Teachers will be urged to promote the sale of the bonds in the classrooms also," explained Mrs. Marie Ermenkov, International Club advisor.

Last year's drive netted almost \$1000, with profits coming from the bond sales and the Donkey Basketball game.

store is going to close its doors  
after 23 years of operation.

The store, opened in October,  
1945, is owned by Mr. and Mrs.

a desire to travel contributed  
to the decision to sell out. A  
sale is already in progress.

The store was the first open-  
ed in Lemon Grove following  
WWII. The only other store  
in business at the time was the  
Sonka Brothers store, Mrs.  
Troxel said.

The store is located at 3340

#### Girl Scouts Tour

Girl Scouts from Spring Val-  
ley took a bus trip to Disney-  
land recently to attend Girl  
Scout Day at Disneyland. The  
girls enjoyed an hour of rides  
before the park opened to the  
general public. Troops from  
Rancho, Spring Valley, Ban-  
croft, Avondale schools and  
two Cadette troops went.

## Van Deerlin Backs New VA-FHA Bill

Rep. Lionel Van Deerlin (D-  
San Diego) is co-sponsoring  
legislation for wiping out cost-  
ly "discount points" in trans-  
actions involving mortgages  
insured by the Federal Housing  
and Veterans administra-  
tions.

A discount point is a fee  
equivalent to one per cent of  
the value of the mortgage  
loan on which it is levied. Van  
Deerlin said Wednesday that  
banks, savings and loan asso-  
ciations and other lenders now  
are charging as many as 13  
points for financing fixed-  
interest loans backed by the  
VA and FHA.

The legislation to end this  
practice would do so by remov-  
ing the six per cent interest  
ceiling now imposed by law  
on home loans underwritten  
by the two federal agencies.

The bill was drafted and in-  
troduced earlier this month by  
Democratic Rep. Richard T.  
Hanna, from neighboring Or-  
ange County. Hanna serves on  
the House Banking and Cur-  
rency Committee, which has  
jurisdiction over most federal  
housing programs.

Van Deerlin is one of its  
six House colleagues, all Cali-  
fornians who joined Hanna as  
co-sponsors of the bill.

Explaining his move, Van  
Deerlin said the six per cent  
rate is "artificially low" in to-  
day's housing market.

"As a result," the San Diego  
Congressman continued, "lend-  
ers are forced to add points in  
order to get a fair return on  
their investment — and the  
buyers of new homes and the

sellers of old ones get stuck  
with the added costs."

Van Deerlin said no one can  
really be blamed for the dis-  
count point system. "It is  
simply an imperfect device to  
correct that anomaly in the  
marketplace, the interest rate  
which cannot be varied to re-  
flect the supply of and de-  
mand for mortgage credit."

He said the number of points  
charged against federally in-  
sured loans varies from as  
few as four on perium single-  
family housing to as many as  
13 on multiple-unit coopera-  
tive developments.

"As an unwanted obstacle  
to normal activity in the real  
estate industry, the discount  
point system should be re-  
moved, and the sooner the bet-  
ter," Van Deerlin said.

## 'Mr. Steak' Opens Here

"Mr. Steak," a link in a na-  
tional chain of beef houses,  
played host to approximately  
100 VIPs of the Lemon Grove-  
Spring Valley-La Mesa area  
Saturday.

The restaurant, at Palm and  
Spring streets in La Mesa,  
was built by Bob Rundell, an  
area realtor. He also developed  
Topper Steakhouse at Broad-  
way and Kempf streets, Lemon  
Grove. In both instances Rund-  
ell built the building for the  
parent firm and they were  
leased to the franchise holder.

Topper Steakhouse is own-  
ed by Les Reid. Mr. Steak is  
owned by Mike Fleischi.

Mr. Steak opened for busi-  
ness Monday. The investment,  
Fleischi said, represents a  
quarter of a million dollars.

### Utt Legislation Near

Congressman James B. Utt  
(R-35th) returned to Washing-  
ton last week and to optimistic  
reports on the Colorado River  
Basin legislation before the  
Interior and Insular Affairs  
Committee.

In January Utt, along with  
the California delegation, sub-  
mitted a bill (H.R. 14834) re-  
placing the several bills intro-  
duced by California Congress-  
men last year.

The new bill retains guaran-  
tees to southern California of  
4.4 million acre feet of water  
annually from the Colorado  
River, and reaches agreement  
with Arizona, Nevada and the  
"Upper Basin states" (Colo-  
rado, New Mexico, Utah and  
Wyoming) that settle disputes  
running back 50 years.

With the help of UNICEF,  
the number of hens in India  
has doubled in the past ten  
years, providing protein-rich  
food for the children.

## Matadors Romp Trojans 64-44

Mt. Miguel High School  
basketball team scored an im-  
pressive 64-44 victory over  
Castle Park in the opening  
rounds of the CIF Class AA  
playoffs Monday.

Big guns for the Matadors  
were 6'8" center Ken Bar-  
stow and Mike Ella who com-  
bined efforts as they pumped  
38 points through the hoop to  
pace the Grossmont League  
champs.

It was Miguel's 29th straight  
win of the season. Ken Green-  
man and Blake Mathews scored  
11 and 12 points respec-  
tively.

## Monte Vista Falls Short In CIF Play

Monte Vista High fell to a  
fast moving Madison High in  
the CIF Southern Section bas-  
ketball playoffs 73-40, Monday.

Monte Vista, who had fin-  
ished third in Grossmont League  
action, had attempted a  
full court press to hold the  
Western League champs back  
from winning their 19th  
straight but failed to keep  
them in check.

Jim Westcott was top shoot-  
er for the Monarchs as he  
clipped off 17 points. He was  
the only Monarch to move into  
double figures in the game.

Auctioneer. Auctions are held weekly on  
Saturday mornings at 3659 Costabella in  
Lemon Grove.  
More than 100 persons are expected to be  
on the Association's payroll by the end  
of the calendar year. The program also  
includes training aid.

## C.V. Councilman Raps Assessor

Chula Vista's Dan McCorquodale Wednesday charged E. C. Williams, County Assessor with "intentionally under-assessing vacant land parcels."

McCorquodale, while Mayor of Chula Vista, started a survey of assessment practices in response to a 25 percent increase in CV's assessed valuation.

"The most damaging evidence against the Assessor is the consistency in underassessment of vacant land," McCorquodale said. He claimed over-assessments at 21.6 percent of market value while vacant land is 10:9. He also charged that many vacant parcels are assessed to as low as one percent.

Assessor Williams said that appraisals depend upon the competency and integrity of the appraiser.

"I understand this (McCorquodale's) ratio analysis is based solely on Internal Revenue Service tax stamps, and not on verified sales."

"My own sales-ratio, which is based on verified sales refutes this allegation."

"In any mass appraisal approach there will be exceptions. Many sales will be made and many improvements will be added after the lien date."

McCorquodale charged that more than \$45 million in revenue is lost annually due to under assessments.

## Learn Spanish the Easy Way

### Hardison's Telespanish

by James Hardison

How do you form Spanish words that end in IVO or IVA from English words? Most English words that end in IVE may be changed to Spanish words by replacing the IVE ending with IVO or IVA.

English words like "expressive, attractive, active, native, exclusive, productive and negative" are good examples of words ending in IVE. They may be converted to Spanish by changing the ending to IVO.

For example, the word "active" may be changed to "activo" and the word "native" may be changed to "nativo." In both cases the IVE ending is changed to "IVO."

The words "expressive" and "attractive" require special attention as they have a double "s" and double "t" respectively. The double "s" and the double "t" are not used in Spanish. Consequently the spelling is altered and the Spanish words

are "expresivo" and "atractivo."

When we say "El es activo" (He is active), the subject "el" is masculine and modified by "activo." When we say "Ella es activa" (She is active), the subject is feminine and modified by "activa."

Today's practice phrases demonstrate the use of words ending in IVO or IVA. Practice them with the automatic recorded voice when you dial 276-2762.

#### IMPORTANT PHRASES

Say "El es muy activo." (ehl ehs MOO-ee ahk-TEE voh) for "He is very active."  
Say "Ella es tractiva." (EH-yah ehs ah-trahk-TEE-vah) for "She is very attractive."

#### USEFUL PHRASES

Say "Yo no soy nativo." (yoh noh SOH-ee nah-TEE-voh) for "I am not a native."  
Say "Ella es nativa." (EH-yah ehs nah-TEE-vah) for "She is a native."

#### OTHER PHRASES

How do you own a  
stack of Savings Bonds  
when you're older?

Start young.

Start small, if you want to, but start steady. The important thing is to have a regular program of setting something aside every payday.

What's most important: it's never too early to begin.

You say that takes more will power than you can muster up on a regular basis? Then use the easy, automatic way: join the Payroll Savings Plan where you work.

This way your employer saves your money for you—puts it toward the purchase of a U.S. Savings Bond.

Pretty soon you won't even miss the money. In fact, you'll probably forget how fast your savings are growing. Here's a for-instance: just \$4.33 a week adds up to the \$18.75 you need to buy a \$25 Bond every month. That's \$300, maturity value, a year. Not bad for a former spend-thrift! What's more, those few dollars you're tucking away to grow will be working all the time to help keep our country strong and free.

So start now, start young, building up the savings that count so much later on. Join the Payroll Savings Plan before next payday.
